User Experience Architect Lead | Product Designer | AI and emerging platforms

PROFESSIONAL SUMMARY

User Experience Architect Lead with 10+ years executing user-centered design for complex, data-heavy digital products across health, pharma, and enterprise platforms. Proven track record delivering UX artifacts including prototypes, sitemaps, user flows, and wireframes that translate complex systems into intuitive experiences. Experienced in facilitating design thinking workshops, coaching product designers, and driving cross-functional alignment from discovery through delivery.

EXPERIENCE

User Experience Architect Lead

AREA 23 | An IPG Health Company [permanent] Nov 2024 - December 2025 | New York, NY

- Led UX direction across complex, multi-brand engagements for Amgen, Novartis, AstraZeneca, Sumitomo, Daiichi Sankyo, Lilly, Sanofi, Bayer, and Janssen Biotech,
- Drive and advocate for user-centered design principles and best practices across all product initiatives
- Provide consultation and thought leadership for brands on AI technology integration and leveraging industry-standard models for rapid prototyping and iterative development
- Lead mobile application and web product development for AMGEN, Novartis, Astra Zeneca, Sumitomo, Daiichi Sankyo, Lilly, Sanofi, Bayer and Janssen Biotech.
- Built 0-to-1 design systems from the ground up, defining the visual and interaction language, component governance, and accessibility standards adopted across brands.
- Mentored Product Designers on craft, storytelling, and client presence, raising the quality bar for what the team shipped.

Senior User Experience Architect

AREA 23 | An IPG Health Company [permanent] Nov 2020 - Nov 2024 | New York, NY

- Led Experience Design and User Experience Design for multiple brands as part of distributed agency team, partnering with technology to articulate features and technical approach.
- Designed the non-visual UI for Eyedar, a LiDAR-driven echolocation mobile application for blind users navigated through swipe gestures adapted from Mac trackpad conventions; developed the user training regimen, authored the in-app UX copy and Instructions for Use, and consulted on production of the creative campaign video shoot.
- Led experience design across multiple brands simultaneously, working directly with technology partners to define what was feasible and worth building.
- Designed information architecture, interaction models, and annotated prototypes that engineering teams could build from without guesswork.
- Conducted discovery, qualitative/quant research and heuristic analysis to optimize user experiences

Senior User Experience Architect

AREA 23 | An IPG Health Company [freelance] Sep 2018 - Nov 2020 | New York, NY

- Synthesized usability findings into prioritized recommendations across multiple pharmaceutical brands, owning UX strategy end to end, from concept through development handoff.
- Partnered with clients to expand design systems, prepared governance reviews, presented Experience Design approaches to senior clients and regulatory teams.

Senior Project Coordinator

SHIFT Labs Inc. [permanent] Jan 2018 - Aug 2018 | New York, NY

- Led technical development for several eCommerce digital products and mobile applications
- Managed technical staff within an agile methodology and presented features to clients weekly.
- Conducted client discovery workshops, researched trends and presented engagement strategy recommendations

User Experience Consultant

VaynerMedia [freelance] Apr 2017 - Nov 2017 | New York, NY

- Led digital ecosystem discovery and participated in Qual/Quant research for International beverage brand's digital engagement strategy.
- Formulated UX strategy and delivered comprehensive User Experience artifacts for all project phases
- Provided user experience guidance for CRM, mobile and eCommerce integrations for Diageo brands.

Product Development Team Lead

R/GA [freelance] Oct 2016 - Mar 2017 | New York, NY

- Guided project direction based on usability testing, journey maps and rapid prototyping for Verizon wireless mobile app.
- Architected communications and notifications strategy for all digital touch points within the application experience.
- Maintained Roadmap documentation and user journeys for our Agile client+creative team

Senior Digital Producer / UX Architect

POSSIBLE | a WPP agency [freelance] Dec 2015 - Oct 2016 | New York, NY

- Provided leadership for content strategy, UX design and visual design teams for co-branded responsive website experience. (Genentech + Novartis).
- Managed technical development sprints through a platform redesign and CMS migration to AEM.
- Collaborated on qual/quant research
- Conducted usability testing and presented findings to clients.

Senior Digital Producer / Product Designer

Deep Focus [permanent] Oct 2014 - Dec 2015 | New York, NY

- I led the full product development lifecycle for a Nestlé Global portfolio-level CRM platform, from participating in user interviews to the final delivery of the completed MVP (including Tech SDLC).
- Tasks required aligning content strategy, UX strategy and creative development with business goals as well as analytics KPIs with client teams.
- Wrote custom algorithms calling public API data.
